## Mysteries & Muses of the Middle Ages

with Veriditas Faculty, Dr. Kayleen Asbo

The Middle Ages were truly both the best and worst of times: amidst war and the horror of crusades arose astonishing beauty and wisdom. From the ashes of catastrophe, Chartres Cathedral emerged as a beacon of light and hope, drawing together the wisdom of many different traditions and re-igniting the flame of inspiration from the Ancient Greek world. In our pilgrimage with cultural historian, musician and Veriditas Faculty Kayleen Asbo, Ph.D, we will explore this journey of renewal and hope which has much to say to us about our own times, encountering fascinating and paradoxical figures, stunning art and architectural symbolism and profoundly moving music.

## The Path of the Holy Fool:

### What the Labyrinth Teaches about the Imagination

with The Reverend Dr. Lauren Artress

Our imagination is alive with every breath we take, whether waking or sleeping. Our human imagination is wedded to the Divine and walking the labyrinth can open our heart, mind and spirit to astounding experiences. It is the Holy Fool who sees this and nurtures this connection for guidance and wisdom.

Collected from earlier myths around the same time labyrinths were put into the great Cathedrals of Europe, the Grail Legend will serve as the reflective mirror for our experience. The journey of Parsifal, that pure-hearted fool who ventures from a naïve and unconscious state into being conscious has much to teach us about seeking and creating a purposeful life.
